Thank you, Dave.

I will be out next week. I will return on 9/19. My lab contact, Tom Kady, is out until 9/21 and I would very much like him to attend the webinar also. I hope to be able to do another walk through with our consultant and the tech team when we are ready. Getting two separate interpretations should benefit the project.

I look forward to seeing the images.

Subject: Tower Standard MIP/HPT

Just spoke with Cascade and they will be having Brad Carlson prepare a short (approx. 30 minute) webinar on the Tower Standard results. They will try to have it ready in the next week. As soon as I hear back from them on dates and times to present, I will again notify the group. Hopefully this will expedite the interpretation/understanding of the data to keep this project moving forward.

Thank you,

David N. Larsen P.G
